## Main points

The Standing Committee on Crown and Central Agencies is one of the Legislative Assembly's four policy field committees. It considers matters relating to Crown Investments Corporation of Saskatchewan (CIC) and its corporations, supply and services, central government agencies, liquor, gaming, and all other revenue-related agencies and entities. During its review of Crown corporation annual reports, the Committee can inquire about current matters, future objectives, and past performance.

The Committee also reviews chapters of our reports concerning CIC and its related corporations. The Committee's discussions relate to broader issues including strategic plans, key risks to achieving goals and objectives, and performance measurement. It also reviews significant transactions made by these corporations.

Through its work and recommendations, the Committee helps the Assembly hold the Government accountable for its management of these corporations. At December 2009, the Government has implemented most of the Committee's recommendations. This chapter sets out the status of outstanding recommendations for agencies not discussed elsewhere in this report.

## **Introduction**

This chapter provides an overview of the role and responsibilities of the Standing Committee on Crown and Central Agencies. We describe what the Committee does, how it is structured, and how it works. We discuss the importance of the Committee's deliberations and recommendations. We also highlight some of its recent activities. In the Exhibit, we set out the status of the Committee's recommendations outstanding at December 31, 2009 for agencies not discussed elsewhere in this report.

## **Overview of Committee's role and responsibilities**

The Standing Committee on Crown and Central Agencies is one of the Legislative Assembly's four policy field committees. Policy field committees are responsible for examining various documents referred to them by the Assembly. These documents include bills and regulations (proposed laws), annual budget estimates, and annual reports. Policy field committees can also conduct inquiries into matters within their mandates.

This Committee's mandate is to consider matters relating to Crown Investments Corporation of Saskatchewan (CIC) and its corporations, supply and services, central government agencies, liquor, gaming, and all other revenue-related agencies and entities. At the beginning of each Legislature, the Legislative Assembly appoints the members of the Committee.

The Committee focuses on corporations that receive revenues primarily from sources other than the General Revenue Fund. During its review, the Committee can inquire about issues of current concern, future objectives, and past performance. Because of the magnitude of financial activity that the Government manages through CIC and its corporations, the Committee has an important role. It helps the Assembly hold the Government accountable for its management of these corporations.

The Assembly refers the annual reports and financial statements of CIC and its corporations to the Committee. The Committee also receives payee disclosure reports from each corporation. In addition, the Assembly refers our reports (or parts thereof) that relate to CIC and its corporations

to the Committee. The Committee uses these reports to review the corporations' operations.

The Committee also requires CIC and its corporations to submit reports of their significant transactions. Significant transactions are defined by the Committee as those that are material in amount and outside the ordinary course of business, or are judged to be sensitive and likely of interest to legislators and the public. These reports describe the transaction, the objectives of the transaction, its financial implications, and the authority for the transaction. Because Crown corporations must submit these reports within 90 days after the transaction, the Committee can review them on a timely basis. During 2009-10, the Committee received one significant transaction report.

Our Office attends certain meetings of the Committee to help it with its review of annual reports, financial statements, and relevant chapters in our reports. The Committee also invites each corporation's appointed auditor to these meetings to help the Committee with its review.

Crown corporation officials and the Minister responsible for the corporation attend the Committee's meetings. They answer questions about their corporation's financial results, plans and priorities, significant transactions, and related chapters in our reports. Periodically, the Committee formally reports its findings and recommendations to the Assembly.

The Committee's meetings are open to the public. Its website ([www.legassembly.sk.ca/committees/](http://www.legassembly.sk.ca/committees/)) contains information about the composition of the Committee and records of the Committee's meetings (i.e., Hansard verbatim, minutes, videos, and reports).

As with the Standing Committee on Public Accounts, this Committee's discussions and recommendations to the Assembly result in a more open and accountable government and in better management of government operations. The Committee's work is crucial in a well-managed parliamentary system of government. The Committee provides a vital link in the chain of accountability over public resources. The work of the Committee also contributes to the public's confidence in our system of government.

## Status of outstanding recommendations

The Committee's reports (and those of the predecessor Standing Committee on Crown Corporations) contain recommendations, some of which take more than one year to implement. Each year, we follow up and report on their status.

Either in a chapter relevant to the Crown corporation or in the Exhibit below, we provide an update of the status of the Committee's outstanding recommendations—that is, recommendations that the Government has not yet fully implemented. We encourage the Government to implement these recommendations.

The Exhibit below sets out, by each of the Committee's reports, recommendations outstanding at December 31, 2009 that are not discussed in another chapter in this report. For each of these recommendations, the Exhibit sets out the report year of the initial recommendation, the Committee's decision on our recommendation, and to what extent the recommendation was implemented at December 31, 2009.
